Marienhospital Stuttgart (Germany)

## Welcome

Dear Colleagues,

Our Stuttgart course runs in the third decade and we appreciate your ongoing interest to participate in our efforts to demonstrate the evolution of rhinosurgery.

After opening the rhinoplasty course at Marienhospital with our traditional and always updated comprehensive video on our techniques we will have a good time of welcoming and meeting each other followed by late night presentation of "What did I change in the last 5 years" by our special guests and ourselves. Live surgery remains the unpayable part of the Stuttgart Rhinoplasty Course. We will demonstrate our concepts and techniques in cases of primary and secondary rhinoplasty and show the surgical details inside the nose by additional endoscopic transmission.

In 2016 after the live surgery we will again concentrate on case presentations in the panels and discussion with the invited faculty and you, our guests.

Thanks to the great demand we continue to offer the cadaver course at the University of Tübingen to a limited number of participants. In 2016 this course will be held the day before to the live surgery course in Stuttgart.

I am looking forward to welcome you here in Stuttgart together with my colleagues.

A handwritten signature in black ink, appearing to read "W. Gubisch".

Prof. Dr. med. Dr. h.c. W. Gubisch  
Course Director

## Invited Faculty

Nuri Çelik, Istanbul – Turkey  
Rick Davis, Miramar – FL, USA

## Co-Directors

Helmut Fischer, Stuttgart – Germany  
Sebastian Haack, Stuttgart – Germany

## Invited Course Associates

Andreas Dacho, Heidelberg – Germany  
Henning v. Gregory, Berlin – Germany  
Werner Heppt, Karlsruhe – Germany  
Konstantin Lipski, Moscow – Russia  
Stefan Maas, Kassel – Germany

## Tuesday, April 05, 2016

2.00 p.m. – 6.00 p.m.

A blurred photograph of a surgical team in an operating room. The team members are wearing blue scrubs, blue bouffant caps, and blue surgical masks. They are standing behind a table covered with a blue cloth, which has several surgical instruments laid out on it. The background is out of focus, showing the typical environment of an operating room.
